

Docket No. H3381 PCT/US
PCT/EP99/06799

REMARKS

Applicants respectfully request the Examiner to enter the above amendments prior to the examination of this application. It is also respectfully requested that the English translation being submitted herewith and labeled in the header "Substitute Translation", be substituted for the translation previously submitted, as the previous translation is not a correct translation of PCT/99/06799. This error was notice after Applicants' first submission under 35 U.S.C. § 371. Applicants authorize the Assistant Commissioner to charge any fees necessary to have this translation entered into the record.

Status of Claims

Claims 15 to 35 will be pending after entry of the present amendment. Claim 1 is being canceled without prejudice.

Amendment

The specification is being amended to insert section headers and an abstract of the disclosure in accordance with 37 CFR §1.77 to better conform with US patent practice. The specification is also being amended to insert a cross-reference to related applications in accordance with 37 CFR §1.78 and to claim priority to those applications listed therein.

The specification is also being amended on page 6, line 5 to correct a typographical error in viscosity units ("Pas" should be "mPas"). For example, it would be readily apparent to one skilled in the art, that based on the viscosity range provided at page 3, line 21 of the specification for the poly- α -olefin, that the units should be "mPas".

Applicants submit herewith "Version With Markings To Show Changes Made" to show changes made to the specification (not including the addition of headers and canceling or adding of claims).

New Claims 15 to 35 replace original Claims 1 to 14, and are being presented to better conform with US patent practice. These new claims are supported by the specification for
